App

Name: Holoskin

Purpose: It can make aliens disguise themselves as humans
Target Users: non-earthlings

Main Features: holographic makeup

Tech stack: node.js and c++

Monetization model: space credits (diamonds)

One innovative or crazy feature: with the plus ver. you can have access to ordinary human expressions such as "The Government stole my retirement funds / Where`s my pants / etc."

Challenge cards

1. *Must include a useless premium feature.*
2. *Must be designed for aliens visiting Earth.*
